Data Transport in the Nordics

in 3 easy steps

Do you want to interconnect between PoPs in the Nordics? Looking for transport across metro or regional areas? Here's what you need to know in 3 easy steps:

1. Pick the points in the Nordics you want to interconnect.

2. Select your speed (10G or 100G).

3. Send an order. Your transport will be up and running before you know it.

The benefits of data transport with Netnod:

- 10G metro transport from 2 000 SEK per month

- Fast provisioning

- A fully managed solution by Netnod

- Redundancy, multiple paths and automatic restoration

- 24/7 SLA and fault monitoring

More information on Netnod's data transport in metro areas (including a full list of PoPs) is available here.

To see the locations where Netnod provides transport across the Nordics, see here.
